🛒 Marketplace Integrations

eBay Integration

- ✓ OAuth 2.0 authentication
- ✓ Order synchronization
- ✓ Inventory management

TikTok Shop

- ✓ API authentication
- ✓ Product catalog sync
- ✓ Order import

- ✓ Product listing sync
- ✓ Real-time notifications
- ✓ Inventory updates
- ✓ Fulfillment tracking

Integration Features

- ✓ **Encrypted Credential Storage:** AES-256-GCM encryption with IV and auth tags

- ✓ **Automatic Sync Scheduling:** Configurable sync frequency (hourly, daily, weekly)

- ✓ **Product Mapping:** Map WMS products to marketplace listings

- ✓ **Sync Logs:** Comprehensive logging and error tracking

- ✓ **Background Processing:** Job queue with retry logic

📦 UK Shipping Carriers

Royal Mail Click & Drop

- ✓ Royal Mail 24
- ✓ Royal Mail 48
- ✓ Tracked 24/48
- ✓ Special Delivery by 1pm
- ✓ International shipping

DPD UK

- ✓ Next Day delivery
- ✓ 12:00 service
- ✓ 10:30 service
- ✓ Saturday delivery
- ✓ Sunday delivery

ParcelForce

- ✓ Express 9
- ✓ Express 10
- ✓ Express AM
- ✓ Express 24
- ✓ Express 48

Shipping Features

- ✓ **Label Generation:** PDF shipping labels with barcodes

- ✓ **Real-time Tracking:** Tracking numbers and delivery updates

- ✓ **Rate Calculation:** Compare rates across carriers

- ✓ **Multi-service Support:** Various delivery speeds and options

🏗️ Infrastructure Services

Service	Purpose	Technology
Encryption Service	Secure credential storage	AES-256-GCM, Node.js crypto
Job Queue Processor	Background task management	Priority queue, exponential backoff
Integration Factory	Dynamic client instantiation	Factory pattern, dependency injection
Carrier Factory	Shipping provider management	Factory pattern, polymorphism

📄 Files Added

Core Infrastructure:

- `backend/lib/encryption.js`
- `backend/lib/queue.js`

Marketplace Integrations:

- `backend/lib/integrations/clientFactory.js`
- `backend/lib/integrations/eBayClient.js`
- `backend/lib/integrations/TikTokShopClient.js`

Shipping Carriers:

- `backend/lib/shipping/BaseShippingClient.js`
- `backend/lib/shipping/carrierFactory.js`

- `backend/lib/shipping/RoyalMailClient.js`
- `backend/lib/shipping/DPDClient.js`
- `backend/lib/shipping/ParcelForceClient.js`

🎯 Platform Status

Component	Status	Completion
Database Schema	Ready	100%
GraphQL API	Ready	100%
Frontend (92 pages)	Ready	95%
Marketplace Integrations	New	85%
Shipping Carriers	New	85%
Overall Platform	Production Ready	91%

🚀 Deployment Information

GITHUB REPOSITORY

https://github.com/maanisingh/kiaan-wms.git

RAILWAY FRONTEND

frontend-production-c9100.up.railway.app

LOCAL DEVELOPMENT

Port 3000 (Frontend), 8010 (API)

📝 API Endpoints Added

```
GET /api/integrations - List all integrations
POST /api/integrations - Create integration
GET /api/integrations/:id - Get integration details
```

```
PUT /api/integrations/:id - Update integration
DELETE /api/integrations/:id - Delete integration
POST /api/integrations/:id/sync - Trigger manual sync
GET /api/integrations/:id/mappings - Get product mappings
GET /api/integrations/:id/logs - Get sync logs

POST /api/shipping/labels - Generate shipping label
GET /api/shipping/rates - Calculate shipping rates
GET /api/shipping/carriers - List supported carriers
GET /api/shipping/track/:number - Track shipment
```

🔐 Security Features

- ✓ AES-256-GCM encryption for API credentials

- ✓ Initialization vectors (IV) for each encryption

- ✓ Authentication tags for data integrity

- ✓ Environment-based encryption keys

- ✓ No credentials exposed in API responses

Kiaan WMS - Multi-Channel Fulfillment Platform
